

# Gray, SAGE, Age'in place

AGEING IN PLACE  
THE EVENT FOR PROFESSIONALS

## WHEN?

30/06/2022

## WHERE?

VIVES Hogeschool  
Xaverianenstraat 10,  
8200 Brugge

## WHAT?

Let's have a look at the future of living independently at home for longer, based on the Age'in project. How do you reach the ageing population with technology? What does a life-course friendly home look like? How can you achieve social innovation in neighbourhoods? We would like to present this to you in an interactive way. During the workshops, we will work on various interesting topics. After a healthy lunch, the innovative cooking platform, which was developed in-house, will be officially opened.

## PROGRAM
