

Reminder: beneficiary survey Approved projects featured online - Welcome Julie Lefebvre

Reminder: beneficiary survey

What do you think about our communication activities?

Your feedback is extremely important to us and helps us to better support you in developing your cross-border projects.

Thank you for taking a few minutes to give us your opinion.

[Click here to share your opinion.](#)

(The survey will be open until 17/02/2017.)

Approved projects featured online

The screenshot shows a search bar and three filter dropdowns: Member state, Priority Axis, and Specific objective. Below are eight project cards:

- BISEPS** Business Clusters Integrated Sustainable Energy Packages
- SCAPE** Shaping Climate change Adaptive Places
- Triple-A** Triple-A: stimulating the Adoption of low-carbon technologies by home-owners through increased Awareness and easy Access
- CARBONVALUE** Development and demonstration of low CARBON technologies to transform CO₂ and CO streams from the steel industry INTO new VALUE chains
- 3D&PPP** Integrating metal 3D printing and flexible post processing
- IMODE** Innovative Multi-Component Drug design (IMODE) for enhancing regional strategic advantages in pharmaceutical and biomedical applications
- INCASE** towards Industry 4.0 via Networked Control Applications and Sustainable Engineering
- ICARIS** Innovation Cluster Accelerating Remote Sensing

A new section on approved projects is now available on the Interreg 2 Seas website.

The section is introduced by a brief state of play, demonstrating key figures on the Programme implementation.

You can filter the projects by member state, priority axis and specific objective. Click a project and find more details about the partnership, objectives, main outputs, etc.
